Because, every child is a champion.

# Why

- ❖ Education is a fundamental right in India. But there are children in every part of the country who do not exercise this right.
- ❖ Thousands of children do not go to schools or drop out of them very soon due to their financially constrained background.
- ❖ There are millions of children who are trapped in this vicious cycle of poverty and illiteracy.

# What

- VVS Foundation was found in the year 2012, to enrich the lives of these children and to catalyze a socio economic change in India.
- We are an NGO raising money from individuals and corporate sponsorships to provide qualitative education as well as sports coaching to the meritorious and skilled children.
- The VVS Foundation believes every child with potential must be given the opportunity to flourish, and that financial impediments should not be a hindrance.
- Our aim is to stand for individuals who aspire to rise high but are held back by affordability issues.
